Our Merchants!

The growth and development of any community depend to a large extent upon the character and progressiveness of its merchants.

A city chooses its merchants, for only those whom the people patronize can afford to remain in business. The man who does not "play fair" will, sooner or later, be found out and forced to quit. The honest merchant who knows his business and sticks to it is bound to succeed.

This community is fortunate in having its mercantile business in the hands of high class men. No finer body of business men can be found anywhere in the world than those with whom our people have the privilege of dealing daily.

THE BEGINNING OF A BANK-NOTE

Little Marcia's baby dress though made of the finest linen was ultimately worn threadbare. One day it landed in the rag bag and was sold to the junk dealer. When the rag sorter touched the discarded garment he detected in a flash the fine quality of the flax and set it aside for a journey to the Bureau of Engraving and Printing at Washington. Eventually it became legal tender—a bank-note. Just how is told in one of the beautiful booklets about Our Government which we are sending each month to those interested.

Just send us your name and address and you will receive a copy of every issue of the series without charge.
